Hi Mike

We at Kettlehouse believe in working with our trade partners towards collaboration and compromise whenever it comes to legislative matters. We do not feel that SB202 accomplishes that. I understand there are ongoing negotiations between the MBA and the MTA and we hope that an agreement acceptable to both parties as well as the Montana Beer and Wine Wholesalers can be reached. Our main concern right now is meeting the growing demand from grocery and c stores, as well as restaurants and taverns, for our cans and draft offerings. Yes we operate a vibrant taproom that has helped build a demand for our higher margin craft beers. But our growth has come from the wholesale side of our business. We like how things currently work and would need to see both sides work on a compromise before we supported any change in the laws.

Thanks for your support.

Tim
